Storage : Store in an cold place

**Product name : FILTROSTABIL**

### 8 – Personal protection

Eye protection : Wear goggles.  
Hand protection : Wear gloves if risk contact

### 9 – Physical and chemical properties

Appearance : Light yellow liquid  
Viscosity : 50 cp  
Density : 1100 Kg/m<sup>3</sup> – 1160 Kg/m<sup>3</sup>  
pH (solution at 20%) : 2 - 3

### 10 – Stability and reactivity

Stable product  
Not a hazardous product if used under normal conditions of use.

### 11 – Toxicological information

Ingestion : No toxic  
Skin contact : Possible momentary irritation  
Eyes contact : Can cause reversible wounds.

### 12 – Ecological information

Biodegradable product

### 13 – Disposal procedures

Vacuum the product up and wash with plenty of water.

### 14 – Transport information

RID/ADR  
IM DG  
IATA

### 15 – Regulatory information

Not applicable

### 16 – Other information

“ This sheet completes the technical utilisation manual but does not replace it. The information contained within is based on the level of our knowledge relative to the product at the date indicated. It is given in good faith. The attention of the users is above all drawn to the eventual risks taken for the products usage in situations other than that for which it was conceived.

In no situation should the user disregard the precautions outlined for the products use. The user assumes the sole responsibility for following the precautions listed in regards to their utilisation of the product ”.
