MATERIAL SAFETY DATA SHEET**Product : AQUACOL**

Version n°01 of 30/08/03

8 – Exposure control/Personal protection

Not applicable.

9 – Physical and chemical properties

Appearance : Yellow liquid
pH (solution at 20%) : 4,0
Specific weight : approximately 1057 kg/m³

10 – Stability and reactivity

Avoid contact with strong and concentrated oxidisers.

11 – Toxicological information

Non-toxic food product.

12 – Ecological information

Biodegradable.

13 – Disposal considerations

Send the product to a chemical treatment centre.

14 – Transport information

RID/ADR
IMDG
IATA

15 – Regulatory information

Product not classed

16 – Other information

Vertical lines on the left hand side show the modifications made compared with previous version.

“This data sheet completes the technical utilisation manual but does not replace it. The information contained within is based on the level of our knowledge relative to the product at the indicated date. It is given in good faith. The user's attention is above all drawn to the possible risks incurred when a product is used for other purposes than those for which it has been designed.

In no situation should the user disregard the precautions outlined for the products use. The user assumes the sole responsibility for following the precautions listed in regards to the use of the product.”
