8 - Personal protection

Wear goggles and a breathing mask.

Product name : OPTIBENT
Version n°01 of 24/11/2005

9 – Physical and chemical properties

Appearance : Powder or granules
Solubility : Insoluble
pH (suspension at 50g/l) : 8 to 10

10 – Stability and reactivity

Possibility of inflammation of the small particles

11 – Toxicological information

Ingestion : A repeated and extended inhalation can cause a respiratory tracks irritation.
Skin : Dry skin, possibility of cracked skin and cracked mucous membranes

12 – Ecological information

No harmful effect established

13 – Disposal procedures

Vacuum the product up.

14 – Transport information

RID/ADR
IMDG
IATA

15 – Regulatory information

Not applicable

16 – Other information

“ This sheet completes the technical utilisation manual but does not replace it. The information contained within is based on the level of our knowledge relative to the product at the date indicated. It is given in good faith. The attention of the users is above all drawn to the eventual risks taken for the products usage in situations other than that for which it was conceived.

In no situation should the user disregard the precautions outlined for the products use. The user assumes the sole responsibility for following the precautions listed in regards to their utilisation of the product ”.
